

## Deprivation of Liberty in Community Settings

This is just a guide to help you decide what to do (if anything) about the people for whom you are responsible. Remember this only applies to people who are living in community settings - ie NOT care homes and NOT hospitals.

	Person's name (use initials if you prefer)	Where does this person currently live? (supported living, Shared Lives, own home etc etc)	Is this person under continuous supervision & control? (ie NOT able, or NOT allowed to go out on their own)	Is this person not free to leave? (ie NOT able, or NOT allowed, to go and live somewhere else)	Does this person lack the capacity to agree to their care arrangements?	Is this person's care "imputable to the state"?	What am I going to do next?

**In the "what am I going to do next" column, we would suggest at the very least you should discuss what to do with your manager and/or your legal department, and make a note of any decision taken.**
